I am a **Software Engineer** specializing in **Next.js**, **React**, and **TypeScript**. I am currently learning to work with **MongoDB**. I have over 3 years of experience building applications that can be viewed on the web.

### SOFTWARE PROJECTS

---

#### HomeAway: Airbnb Clone ( <https://homeaway-supabase.vercel.app/> )

- Created a website with **Next.js** by utilizing **Shadcn/ui** to shape the frontend interface, **Clerk** to handle user authentication, **MongoDB** to store user data and **Supabase** to store images to resemble Airbnb.
- Implemented **TypeScript** to add static typing and classes to add structure to over 20 pages of the website.
- Composed the overall layout and mobile responsiveness of the web application using **Tailwind CSS**.
- Coded with: **Next.js**, **Tailwind CSS**, **JavaScript**, **Shadcn/ui**, **Clerk**, **Supabase**, **MongoDB**, **TypeScript**, **Git**

#### Tealaxation ( <https://tealaxation.netlify.app/> )

- Adapted a mockup from **Figma** into a fully responsive website with over 1,000 lines of code that focuses on shipping premium tea at an affordable price.
- Developed the functionality of the modern website using vanilla **JavaScript** and ES6 modules.
- Constructed a **REST API** hosted on **GitHub Pages** that contains all of the products for the online store.
- Built with: **JavaScript**, **HTML**, **CSS**, **REST API**, **Git**

#### Spaces: Real-Time Messaging Application ( <https://ms-spaces.com> )

- Utilized the **React** framework to develop a server that can handle over 10,000 concurrent connections to create a platform where users can join rooms to send and receive messages from other online users.
- Maintained user authentication and user data within the backend cloud servicing platform **Firebase**.
- Established a backend that allows for bidirectional communication using **WebSockets** within **Socket.io**.
- Designed with: **React**, **Node.js**, **JavaScript**, **HTML**, **Tailwind CSS**, **Socket.io**, **Express**, **Firebase**, **Git**

### WORK EXPERIENCE

---

#### Software Engineer Freelancer New York City, NY

8 / 2021 - Present

- Hosted over 15 **Next.js**, **TypeScript**, and **React** applications through Netlify, Heroku and Vercel.
- Engaged in online discussions that have impacted over 60,000 **Next.js** developers on the website Stack Overflow.

#### Shake Shack Opening Trainer / Team Training Captain New Jersey, NJ

4/2023 - 3/2025

- Supervised 12 training groups in 3 different stores across New Jersey, New York, and Ohio.
- Directed and trained multiple groups of trainees consisting of 60-120 new team members during 50 hour work weeks to prepare for 7 restaurant openings.

### SKILLS & INTERESTS

---

**Frontend:** React, JavaScript, HTML, CSS, Tailwind CSS

**Backend:** Node.js, Express.js, REST APIs, HTTP Methods, WebSockets,

**Tools:** TypeScript, Next.js, GitHub, Firebase, Socket.io, Git, Figma, Supabase, Clerk, Shadcn/ui, MongoDB

**Interests:** Software Development, Music, Art, Ecommerce, Social Media, Marketing, Languages

### EDUCATION

---

General Assembly: Software Engineering Immersive, NY

10 / 2019 - 1 / 2020

Stony Brook University, Major: Computer Engineering, NY

1 / 2016 - 5 / 2019
